§ 1421.300 Applicability.

(a) The regulations in this subpart are applicable to the 2002–2007 crops of eligible acreage planted to wheat, barley, oats or triticale that is grazed by livestock and not harvested in any other manner. This subpart sets forth

the terms and conditions under which a grazing payment in lieu of a loan deficiency payment will be made by CCC.

(b) The form that is used in administering these payments is available in State and county FSA offices and shall be prescribed by CCC.

§ 1421.301 Administration.

(a) This subpart shall be administered by the Farm Service Agency (FSA) under the general direction and supervision of the Executive Vice President, CCC or designee. The program shall be carried out in the field by State and county FSA employees under the general direction and supervision of the State and county FSA committees.

(b) State and county committees, and representatives and employees thereof, do not have the authority to modify or waive any of the provisions of the regulations in this part, as amended or supplemented.

(c) The State committee shall take any action required by this part which has not been taken by the county committee. The State committee shall also:

(1) Correct, or require a county committee to correct, any action taken by such county committee which is not in accordance with the regulations of this part; or

(2) Require a county committee to withhold taking any action which is not in accordance with the regulations of this part.

(d) No delegation herein to a State or county committee shall preclude the Executive Vice President, CCC, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by a State or county committee.

(e) The Deputy Administrator for Farm Programs (DAFP), FSA, may authorize State and county committees to waive or modify deadlines and other program requirements in cases where timeliness or failure to meet such other requirements does not adversely affect the operation of the program. In addition, DAFP may establish other

conditions for payments that will assist in achieving the goals of the program and may include such provisions in the program agreement or other program documents.

§ 1421.302 Definitions.

The definitions set forth in this section shall be applicable for all purposes of program administration under this subpart:

COC means the FSA county office committee.

CCC means the Commodity Credit Corporation.

Department means the United States Department of Agriculture.

Deputy Administrator means the Deputy Administrator for Farm Programs, Farm Service Agency (FSA) or a designee of that person.

FSA means the Farm Service Agency of the Department.

Secretary means the Secretary of the United States Department of Agriculture, or the Secretary's delegate.

STC means the FSA State committee.

§ 1421.303 Eligible producer and eligible land.

(a) To be an eligible producer for a payment under this subpart, the person must be a producer of wheat, barley, oats, or triticale in the 2002 through 2007 crop years. Also, to be an eligible producer, the person must meet all other qualifications for payment that are set out in this subpart, set out in parts 12, 718, 1400, and 1405 of this title. A person will not be considered the producer of the crop unless that person was responsible for the planting of the crop and had the risk of loss in the crop at all times, including, at the time of planting and the time of the request for a payment under, this subpart.

(b) A minor may participate in the program if the right of majority has been conferred on the minor by court order or by statute, or if the minor participates through a guardian authorized to act on the minor's behalf in these matters. Alternatively, a minor may participate if the program documents are all signed by an acceptable (to CCC) guarantor or if bond, acceptable to CCC, is provided by a surety.

(c) For the crop to be eligible, the crop, in addition to other standards that may apply, must be grown on land that is classified as "cropland" in FSA farm records or on land that FSA determines has been cropped in the last 3 years except that the land may also qualify if the land is committed to a crop rotation, normal for the locality, that includes harvesting the subject crop for grain. These rules are designed to assure, to the extent practicable, the available payment did not produce plantings that otherwise would not have occurred and the CCC may deny payments in any instance in which there is reason to believe that the planting was done for that purpose. To that end, if the commodity involved has not been previously grown by the producer or is not one which is not predominately produced locally, the producer must submit evidence of seed purchases for planting the commodities and other evidence deemed needed or appropriate by the COC in order to assure that the program goals are made and that the land was not planted to an eligible commodity simply to obtain a payment. Also, the land to be eligible must, for the year involved, be grazed and cannot, during the crop year, be harvested at any time for any purpose, except as determined by the Deputy Administrator to accommodate producers with a history of double-cropping when the crop to be harvested is not the crop for which a payment is to be made under this subpart. Land will be considered grazed only to the extent that the crop on the land is consumed in the field as live plants by livestock for the normal period of time for grazing in the area.

(d)(1) A producer must, at the time of the agreement made under this part to obtain a payment, meet all other eligible criteria for obtaining loan deficiency payments.

(2) For producers of triticale who obtain a payment under this subpart the producer must enter into an agreement with CCC to forgo any harvesting of triticale on the acreage for which such a payment is made.

(e)(1) No payment will be made if the crop could not have been harvested because of weather conditions or any other reason.
